Webinar: Hepatitis C: Infection Beyond the Liver

Extrahepatic manifestations of HCV contribute to its increased overall mortality rate in those infected relative to those who aren’t; associated cardiovascular, neoplastic and renal manifestations can contribute significantly to a patient’s truncated lifespan beyond liver-related morbidity. This webinar will address the recognition and the treatment of extrahepatic manifestations of chronic HCV infection. Complimentary registration.

Tuesday, 12:00pm ET - Tuesday, 1:00pm ET
