Visit www.aasld.org/LiverMeeting

- Under “CME, CE, and MOC at The Liver Meeting” you will find
  - Instructions for Claiming Credits/Points
  - A Listing of all sessions offering MOC
NEW!
MOC Evaluations are Completed Within the CME Evaluation System
Except Postgraduate and Basic Science are Linked to Evaluations in LiverLearning

Successful completion for ABIM and ABP points is defined as having completed the following elements:
- Attended designated MOC session(s)
- Claimed CME for the session(s) (ABIM Rule: MOC points must be equivalent to the amount of CME credits claimed for the activity.)
- Completed MOC evaluation(s) for attended MOC session(s)

When/Where to access MOC Evaluations
- Postgraduate Course or Basic Science Symposium – Go to LiverLearning and click on the Postgraduate Course or Basic Science Symposium MOC Evaluation.
- Annual Meeting MOC session(s) - Go to the CME evaluation and complete the MOC evaluation(s) for attended MOC session(s).

MOC Deadlines
Be sure to complete the MOC evaluation for points before the following dates:
- For points to be submitted for 2017 you must complete the evaluations no later than December 15, 2017. Evaluations completed after that date may not be submitted until 2018 (and MOC points may be credited for 2018 not 2017).
- MOC evaluations will remain available until March 15, 2018. Requests for MOC after this date will not be honored.

Note: AASLD submits MOC points on behalf of its learners to ABIM and ABP. Points are not submitted automatically and will not display immediately on your ABIM or ABP MOC Profile upon completion of the MOC evaluation. MOC completions are collected on the 15th of each month and submitted to the ABIM and/or ABP by the last day of the month.
Instructions for TLM General Sessions

All sessions except the preconference courses: Postgraduate Course and Basic Science Symposium
Go into the CME Evaluation

Sessions offering MOC have orange boxes below the name of the session with the number of MOC credits available

Click the green box to “Add” the session
After completing the CME evaluation questions for the session click on the green “Take MOC Evaluation” box below the name of the session.

Once MOC is claimed the box turns white with green outline and MOC points display under the CME credits in a green outlined box.
• This is inside the MOC evaluation. For each MOC session you need to write 2-3 sentences about what you learned in that session and how you will use that knowledge to maintain or change an element in practice.
• AASLD will be reviewing statements and any responses that are not genuine will not be accepted and submitted to ABIM unless they are revised within 30 days of being contacted.
• Once you have completed or saved a MOC evaluation you will receive this “pop up” message. If you don’t submit then you can come back later and you will see that the MOC points are not yet earned and are not yet listed under the CME credits column.

• If you do submit you will see the MOC evaluation button turn white and say “MOC credits claimed” and the MOC points will be listed under the CME credits earned.

• Note that the MOC points will match the CME credits as that is an ABIM rule.

• Also note that the Postgraduate and Basic Science MOC points will not be shown here.

**Total Annual Meeting Credit Hours Earned:** 13.75

**Total MOC Credit Hours Earned:** 5.25

- MOC points will be added up under the total credit hours section except if you take the Postgraduate Course or Basic Science Symposium as those MOC evaluations must be completed outside of the CME system in LiverLearning.
- The most MOC points you can claim for the general meeting sessions is 11.0 or 11.5 (as the MOC Update Session and Value-Based Medicine sessions were held at the same time.)
Instructions for Preconference Sessions

Postgraduate Course and Basic Science Symposium
If you attended the Postgraduate Course or Basic Science Session you will need to complete the CME evaluation but then you will go to LiverLearning to complete the MOC evaluation. We have direct links to the LL MOC evaluation in the CME evaluation to make it easy.
When you get into LiverLearning you will need to login using your AASLD website username and password.

Then click on the button for the course you attended.
Both Types of MOC Evaluations Ask for Information Needed to Report Your Points to the ABIM and/or ABP:

- First Name
- Last Name
- ABIM and/or ABP ID Number
- Birth Month and Day
For the Postgraduate Course or Basic Science Symposium you will need to complete a set of single-best answer questions. Many are case-based. You must score a minimum of 70%.

Once you submit an answer you will receive immediate feedback as to whether your answer is correct or incorrect. You will also receive an answer rationale which explains why the correct answer is correct and other options are not.

If you do not receive a 70% or higher you have unlimited attempts to pass.
This shows the reveal of the correct answer and answer rationale once an option has been submitted.
Deadlines

- **To count in 2017** the CME/MOC evaluations must be completed by the following:
  - American Board of Pediatrics (ABP): November 30, 2017
  - American Board of Internal Medicine (ABIM): December 15, 2017

- Completions after December 15\textsuperscript{th} may be submitted in/for the 2018 calendar year.

- **The final deadline to complete MOC evaluations for The Liver Meeting 2017** is March 15, 2018.
